A Century on Church Green

Honoring the Past, Inspiring the Future

1926 ♦ ————— ♦ 2026

In 2026, the Old Colony History Museum marks 100 years in our historic Bristol Academy building—a milestone that honors our past and points toward the future. For a full century, this building on Church Green has been a place of preservation, learning, and community.

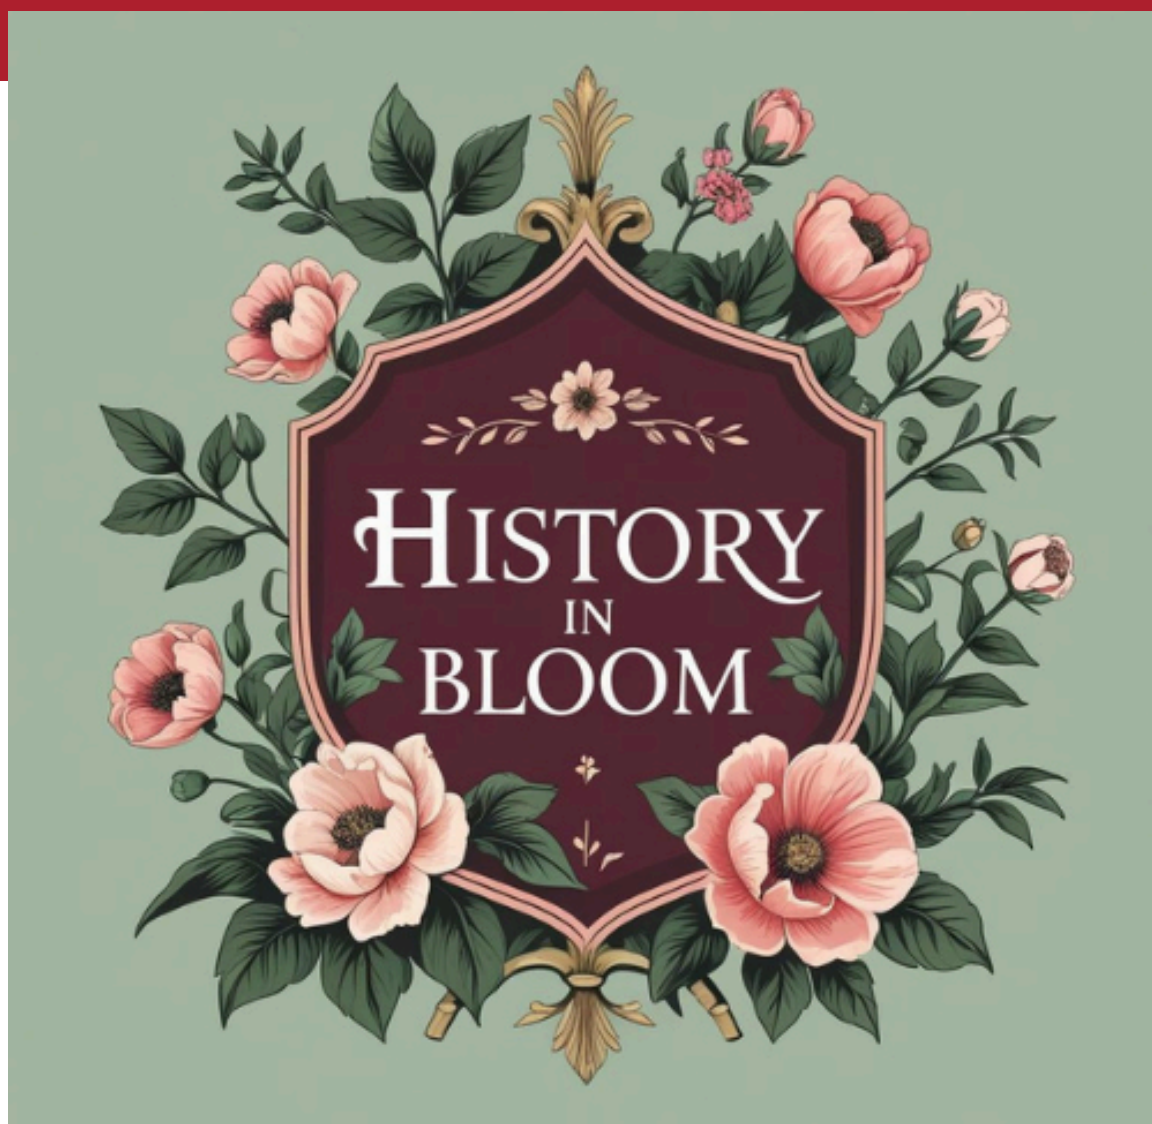

To celebrate, we're introducing new exhibits, immersive experiences, and special events throughout the year. Together, they invite visitors to reflect on the stories that shaped OCHM while opening the door to a new era of learning, discovery, and connection.
